Neurosurgery Executives' Resource Value & Education Society (NERVES) is proud to publish the results of the 2019 Socio-Economic Survey. The 2019 Report is based on 2018 data provided by neurosurgery practice administrators from across the United States. The NERVES survey has been an exceptional tool for practices to use when negotiating, budgeting and managing a neurosurgery practice. This year's survey represents the collective information from 88 practices, 813 Neurosurgeons and 646 Non-physician providers.

These results are copyrighted and this copy is not for duplication or distribution beyond the intended users within your organization. Further distribution without explicit written permission from the NERVES Board of Directors is strictly forbidden. We hope you will use this information to enhance your organization and with care in a manner respecting the copyrighted product. If you have any questions about the survey, please let us know how we may assist. We are proud to offer this valuable tool and hope you find it as valuable as we do.
