*Neurosurgery Executives' Resource Value & Education Society (NERVES) is proud to publish the results of the 2020 Socio-Economic Survey. The 2020 Report is based on 2019 data provided by neurosurgery practice administrators from across the United States. The NERVES survey has been an exceptional tool for practices to use when negotiating, budgeting and managing a neurosurgery practice. This year's survey represents the collective information from 71 practices, 645 Neurosurgeons and 939 other providers.*
