Porter Jones Speaker Bio

Porter Jones is the Vice President of Clinical Transformation for Avant-garde Health.

Porter is a seasoned healthcare professional with vast experience in hospital administration and the medical device industry. He spent four years at the Albert Einstein Hospital in Sao Paulo, Brazil, where he managed the oncology department as well as the medical practice division. In this role he also oversaw the quality, outcomes, health economics and the medical record departments. Additionally, Porter founded and was CEO of a group of medical and dental clinics in Sao Paulo providing healthcare to medically underserved regions of the city.
